**DIRECTOR'S ORDER AND ASSESSMENT**

NOW COMES Paul E. Davis, director of the Tennessee Division of Water Pollution Control, and states:

**PARTIES**

**I.**

Paul E. Davis is the duly appointed director of the Division of Water Pollution Control by the commissioner of the Tennessee Department of Environment and Conservation (hereinafter the "division" and the "department" respectively).

**II.**

Edward Yovella (hereinafter "the Respondent") is a resident of the state of Tennessee and is the owner of property located at 477 Central View Road, in Union County (hereinafter "the site"). Service of process may be made on the Respondent at 477 Central View Road, Andersonville, Tennessee 37705.

**JURISDICTION**

**III.**

Whenever the commissioner has reason to believe that a violation of Tennessee Code Annotated (T.C.A.) § 69-3-101 *et seq.*, the Water Quality Control Act (the "Act"), has occurred,

or is about to occur, the commissioner may issue a complaint to the violator and the commissioner may order corrective action be taken pursuant to T.C.A. § 69-3-109(a) of the Act. Further, the commissioner has authority to assess civil penalties against any violator of the Act, pursuant to T.C.A. § 69-3-115 of the Act; and has authority to assess damages incurred by the state resulting from the violation, pursuant to T.C.A. § 69-3-116 of the Act. Department Rules governing general water quality criteria and use classifications for surface waters have been promulgated pursuant to T.C.A. § 69-3-105 and are effective as the *Official Compilation Rules and Regulations of the State of Tennessee*, Chapters 1200-4-3 and 1200-4-4 (the “Rule”). Pursuant to T.C.A. § 69-3-107(13), the commissioner may delegate to the director any of the powers, duties, and responsibilities of the commissioner under the Act.

#### IV.

The Respondent is a “person” as defined by T.C.A. § 69-3-103(20) and as herein described, has violated the Act.

#### V.

Tennessee Code Annotated § 69-3-108 requires a person to obtain coverage under a permit from the department prior to discharging any substances to waters of the state, or to a location from which it is likely that the discharged substance will move into waters of the state.

Pursuant to T.C.A. § 69-3-108, Rule 1200-4-7-.04 requires a person to submit an application prior to engaging in any activity that requires an Aquatic Resource Alteration Permit (ARAP) that is not governed by a general permit or a § 401 Water Quality Certification. No activity may be authorized unless any lost resource value associated with the proposed impact is offset by mitigation sufficient to result in no overall net loss of resource value.

## **VI.**

Byram's Creek and its unnamed tributary, described herein, are "waters of the state" as defined by T.C.A. § 69-3-103(33). Pursuant to T.C.A. § 69-3-105(a)(1), all waters of the state have been classified by the Tennessee Water Quality Control Board for suitable uses. Department Rule 1200-4-4, *Use Classifications for Surface Waters*, is contained in the *Rules of Tennessee Department of Environment and Conservation Division of Water Pollution Control Amendments*. Accordingly, these waters of the state are classified for the following uses: fish and aquatic life, recreation, irrigation, livestock watering and wildlife.

## **FACTS**

### **VII.**

On September 20, 2005, division personnel from the Knoxville Environmental Field Office (EFO-K) conducted a complaint investigation at the site and noted that an earthen dam had been constructed, resulting in the impoundment of the unnamed tributary to Byram's Creek. No Erosion Prevention and Sediment Control (EPSC) measures had been installed. As a result, eroded material had entered the unnamed tributary upstream and downstream of the dam. A subsequent file review showed that coverage under an ARAP had not been requested or issued.

### **VIII.**

On September 26, 2005, the division issued a Notice of Violation (NOV) to the Respondent for the violations observed during the September 20, 2005, complaint investigation. In the NOV, division personnel requested that the Respondent attend a Compliance Review Meeting (CRM) on October 4, 2005, at the EFO-K to discuss the violations and necessary remedial measures to return the site to compliance.

## **IX.**

On October 4, 2005, a CRM was held at the EFO-K. The Respondent agreed to remove the standpipe and to stabilize all disturbed ground within two weeks. The Respondent was instructed at that time to inform EFO-K personnel upon completion of these actions.

## **X.**

On October 19, 2005, division personnel conducted a follow-up site visit and found that the Respondent had removed the standpipe from the dam and that seed and straw had been placed on disturbed soil.

## **XI.**

On August 14, 2007, division personnel from the EFO-K conducted a complaint investigation and observed that the standpipe had been re-installed resulting in impoundment of the unnamed tributary.

## **XII.**

On August 22, 2007, division personnel issued a second Notice of Violation (NOV) to the Respondent for the violations noted during the August 14, 2007, complaint investigation at the site. In the NOV, division personnel requested immediate removal of the standpipe in order to restore flow to the unnamed tributary.

## **XIII.**

During the course of investigation, the division incurred DAMAGES in the amount of THREE HUNDRED EIGHTY NINE DOLLARS AND FOUR CENTS (\$389.04).
